

Ecological Villages -transnational project

Background:

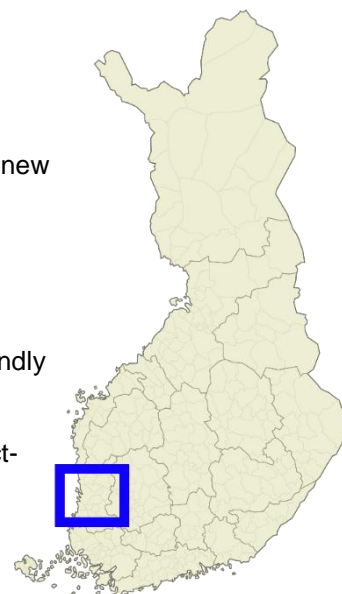

We need to make more interest and focus to the environmental matters and find new solutions.

Objectives

- Find new ways to live or product eco friendly products.
- There is also possibility to create an eco-village or modify the village for ecofriendly way.
- find to way for communality living
- find the ecological solutions for villages, farms, tourism farms, chicken farms ect-
- to find international ecological networks and brands.

Actions:

- Studytrips
 - exchange of ecological way of constructions
 - seminar of ecological building and communality living
- joining to ecological networks globaly
